

What's new in this version

This topic lists additions and improvements incorporated in IWLive Pro (WS) version 2021.1 which were not available in previous versions.

Please note that this new version also includes various enhancements and bug fixes that are not described in detail here.

Added Pipe Break button in the toolbar

The Pipe Break button is now available in the Tools [toolbar](#) which allows you to add a pipe break in pipes and meters.

Added Pipe Break controls in the Properties and Links Window

The Pipe Break controls (Break Enabled, Break Type, Break Diameter, Break Flow, Break Split Pipe Distance, Break Whole Simulation, Break Start, and Break End) are now available in the Properties and Links Window in [Link Data Fields](#). The controls are applicable for pipes and meters.
